

Values Card Sort Directions

Each card describes something that may represent a personal value for you. I would like you to look at each card and place each card under one of the three title cards (important, not important, very important). There are also a few blank cards. If there is a value you would like to include, write it on the card and put it in whichever pile you would like. I would like you to sort all 50 cards, but whether you use the two additional cards is optional. The only rule is that you can have no more than 10 cards under the Most Important stack. When you are done, rank order your Most Important stack from 1 to 10.
